

RoHS COMPLIANCE

The RoHS (Restriction of Hazardous Substances) Directive 2002/95/EC dated 27th January 2003 addresses the restriction of the use of certain hazardous substances in electrical and electronic equipment.

Producers of certain categories of electrical and electronic equipment cannot use high levels of the following six banned substances:

Lead (Pb)

Hexavalent chromium (Cr-VI)

Mercury (Hg)

Cadmium (Cd)

Polybrominated biphenyls (PBB) [flame retardant]

Polybrominated diphenyl ether (PBDE) [flame retardant]

Manufacturers must ensure that none of the "Homogenous materials" within the compliant products contain the six restricted substances in concentrations above the maximum permissible limits.

All Connectwell Terminal Blocks are RoHS Compliant.
